

PASSION, PURPOSE AND PERFORMANCE

ESI Graduate Skills Development Programme Opportunity

UMEME has received funding from the Electricity Regulatory Authority [ERA] to facilitate a graduate development program for a period of 3 years. The Electricity Supply Industry (ESI) is a knowledge intensive industry that requires highly skilled personnel who can only be nurtured through industrial training of fresh graduate students as well as refresher training of personnel. This will ensure effective mentorship and equipping of fresh graduates with a platform to begin and build a successful career in the ESI.

Are you an individual with high integrity, dedication and commitment? Are you a recent graduate with a first or second class upper Bachelor's degree in Electrical Engineering, Law, IT, Finance and /or Business related qualification? Then we welcome you to a future of possibilities.

A career with the Electricity Supply Industry (ESI) offers you:

- An exceptional opportunity when starting your career
- Training and development opportunities
- A mentor to guide you on your career path
- The chance to rotate through different departments and gain experience
- A team-oriented environment

Application deadline: Thursday 13th April, 2017.

HOW TO APPLY: If you believe you are the one we are looking for, please visit our website at www.umeme.co.ug and fill out the application form clearly detailing your suitability for the position in terms of required qualifications and experience.

Please note that if you applied on our previous advert you don't need to re-apply.
